To the Kinnelon Community,

At the last meeting of the Kinnelon Board of Education, I expressed a concern about the safety and security of our students and members of the community as they use the track at Kinnelon High School.

I know over the years the track has been open to the public at all times but based on an increasing number of incidents the Board has approved my recommendation that we separate the use of the track by our students from the use of the track by the community.

Please understand that this change is in the best interest of everyone involved and is still designed to make the track available on a limited basis to the public while maintaining its primary use as part of our educational program as an instructional area. It has become very clear that the two cannot happen simultaneously.

Beginning on September 6th and from that point forward the public use of the track is contingent on the following guidelines. Your cooperation and compliance with the new usage guidelines is appreciated. A schedule of activities are available at http://www.nwjerseyac.com/g5-bin/client.cgi?G5genie=235&school_id=12
