

## Gifted & Talented Program

### Montclair State University

The Montclair State University Gifted and Talented Program has been providing courses for gifted high school students for over 28 years.

This year we have added a series of courses specifically targeting college applications and test preparation. Our new courses reflect the competitive environment our students face when applying to college. We offer Killer College Essays, Personal Website Design for college applications and SAT prep programs among other courses.

These courses, eligibility requirements and registration information are listed on our website at

<http://www.montclair.edu/gifttalent/2009courses9-11.html>.
