

AP STATISTICS SUMMER ASSIGNMENT 2019

Welcome to AP Statistics! You can find details about the summer assignment below. If you have any questions while you are working or about the course in general, feel free to email me at bagarozzaj@kinnelon.org.

All work is from the textbook. You can acquire the necessary textbook pages one of the following ways:

- Check your school email. You should have an email from me containing this document as well as a PDF copy of the necessary textbook pages. If you did not receive an email, please reach out to me ASAP.
- Sign out a textbook in the main office before you leave for summer. **Please remember that you are responsible for a lost or damaged textbook.**

Due Date: Friday, 9/6

Part 1: What is Statistics?

Read pages xxi-xxiii. Write a brief (no more than one page) reflection about the information presented in this section, your personal view of how knowledge of statistics can be valuable, and any questions you have about the information. This should be typed or neatly hand-written on a separate sheet of paper.

Part 2: Problems

You should read all pages from 1-48 (*it is a good idea to take notes on any important information*) and complete the exercises listed below. Example problems are included in the reading and should be considered models for completing the assigned exercises. Make sure all problems are labeled with the problem number.

- *Introduction:* p. 6-7 # 2, 4, 6
- *Section 1.1:* p. 20-23 # 10, 12, 14, 18, 20, 22, 23, 26
- *Section 1.2:* p. 41-46 # 38, 40, 44, 46, 48, 50, 52, 56, 60, 64, 66

I am looking forward to a great year! Have a good summer!

Thank you,
Mrs. Bagarozza
